WHO WE ARE

"We strive to be an excellent solutions provider FRP Blower, FRP Storage Tank, FRP Products, Air Ventilator and other value added service through Team Work"

Incepted in the year 2013, in Vadodara (Gujarat, India) we “Vinayak Fiberglass & Fabrication” are recognized as foremost Manufacturer , Trading and Supplier of a broad assortment of FRP Blower, PP FRP Scrubber, FRP Cooling Tower, PP FRP Motor Guard, Roof Air Ventilator, PP FRP Storage Tank, FRP Grating, etc. Our offered products are manufactured using optimum quality raw materials like wood, plastic, metal and recycled materials at our well-equipped infrastructure base unit. These products are manufactured under the supervision of experienced professionals who are well trained in handling entire business operations with optimum fluency. We have a huge infrastructure that is divided into various units like manufacturing, designing, quality testing, warehousing, packaging, etc. These segregated units are equipped with the machines and tools required for streamlined business processes. For maintaining timeliness and consistency in our production process, we regularly maintain and repair the installed machines. We are also engaged in providing Ducting Job Work and Pipe Lining Job Work.

PRODUCTS

FRP CABLE TRAY COVER

Several types of tray are used in different applications. A solid-bottom tray provides the maximum protection to cables, but requires cutting the tray or using fittings to enter or exit cables. A deep, solid enclosure for cables is called a cable channel or cable trough.

PRODUCTS

FRP GRATING

Molded FRP grating is composed of alternating directional layers of continuous glass fiber for strength, with resin to consolidate the fibers and provide the shape and corrosion-resistance. Due to its bidirectional strength, molded grating can tolerate cutouts in the panel to allow pipe or equipment penetrations without requiring additional support around the opening.

FRP CANOPY

FRP Canopies, FRP Junction boxes and Canopies material which is used in the construction, FRP boxes are corrosion resistant with its special features. Get listings of frp canopy wholesalers, which provides quality frp canopy at reasonable price, along with product ratings and reviews.

PP FRP CHEMICAL STORAGE TANK

The glass fibers are made of various types of glass depending upon the fiberglass use. These glasses all contain silica or silicate, with varying amounts of oxides of calcium, magnesium, and sometimes boron. To be used in fiberglass, glass fibers have to be made with very low levels of defects.

PP FRP SCRUBBER

FRP Scrubbers are used for scrubbing fluids. In air pollution control technology, scrubbers come in three varieties, Dry Media, Wet Media, and Biological.

PRODUCTS

FRP BLOWER

Industrial fans and blowers are machines whose primary function is to provide a large flow of air or gas to various processes of many industries. This is achieved by rotating a number of blades, connected to a hub and shaft, and driven by a motor or turbine.

PP FRP MOTOR GUARD

Fibre-reinforced plastic (FRP) (also fibre-reinforced polymer) is a composite material made of a polymer matrix reinforced with fibers. The fibres are usually glass, carbon, aramid, or basalt. Rarely, other fibres such as paper or wood or asbestos have been used.

FRP PIPES

We manufacture FRP Pipes over a wide range of pipe sizes and a variety of applications like Water Transmission Pipelines, Effluent Lines, Industrial Waste etc.
